

COVID-19 Regional Partnership Program

This short-term funding supports people living on the NSW Mid North Coast (including MidCoast LGA) who are experiencing vulnerabilities due to COVID-19.

We can provide support and assistance with:

- material aid – such as essential and grocery vouchers
- payment of essential items to help support people isolating
- links to well-being supports.

We work with partner organisations (e.g. Health, Dept of Communities and Justice, Resilience NSW, Services NSW, local NGOs) as well as directly with community members, to identify what essential support is required.
